The Vaccine Assessment Council determines how much money payers owe to the vaccine assessment account.

Payers pay their portion to the vaccine account.

The Alaska Immunization Program orders discounted vaccine off of a bulk contract.

The Alaska Immunization Program reports vaccination data back to the Council to help determine future assessment rates.

Providers vaccinate covered patients and only bill payers for vaccine administration costs.

Vaccine is shipped from the depot to providers statewide.

Vaccine is shipped from manufacturers to the Alaska Vaccine Depot.

Providers report all vaccines administered into VacTrAK.
Providers who wish to obtain state-distributed vaccine for *adults* who are uninsured and not otherwise covered by an assessed payer may opt-in to the assessment.

- e.g., Medicaid, Medicare, VA, TRICARE, and tribal health
- Payers will be phased in over 3 years and can opt-out.

- e.g., health care insurers, health benefit plans, third-party administrators
- Payers will be phased in over 3 years and can opt-out.
